

Seminar Aktuelle Themen der Verhaltensbiologie Rothenberge SoSe 2018

Zeiten inklusive Diskussion

Mittwoch 25.04.18			Donnerstag 26.04.18		
			8:30 Uhr Frühstück		
			9:00 - 9:45	Janina Feige-Diller	“Match-Mismatch Hypothesis” and food restriction.
			9:45 - 10:30 anschl. Kaffeepause	Binia Stieger	Lateralized behaviour in mice – stability, causes and effects.
			10:35 - 11:20	Viktoria Krakenberg	Technology or Ecology? Two approaches to assess cognitive bias in mice.
			11:20 - 11:50	Yvonne Wessler	From adulthood to senescence: Effects on social interaction, testosterone and stress reactivity.
Anreise			12:00 Uhr Mittagessen		
14:00 - 14:30	Louisa Bierbaum	Feeding, behaviour and animal welfare.	13:30 - 14:15	Annika Schimmelpfennig	Castration vs. Sterilisation: Progress Report.
14:30 - 15:00	Fabian Karwinkel	Die Krise der Reproduzierbarkeit.	14:15 - 14:45	Sophie Siestrup	Effect of affect? Validating a touchscreen-based cognitive judgment bias test for laboratory mice: MSc study design.
15:00 - 15:30	Maja Peng	Acoustic communication in mice, rats and other mammals.	14:45 - 15:30	Luca Melotti	The problem of group vs. single housing of male mice: evidence from two longitudinal studies.
Kaffeepause			Kaffeepause		
16:00 - 16:30	Sophia Quante	Laterality and behaviour in mammals.			
16:30 - 17:00	Maximilian Baldy	Interactions between stress and androgens in the course of a lifetime.			
17:00 - 17:30	Karina Handen	From Adolescence to Senescence: Behavioral changes in mammals over the course of life.			
17:30 - 18:00	Antonia Hennicke	Social experience, hormones and behavioural development.			
18:00 Uhr Abendbrot			18:00 Uhr Abendbrot		
“Feedback-Gespräch“ Bachelor - Prof. Sachser					

Freitag 27.04.18

8:30 Frühstück

9:15 - 10:00	Niklas Kästner	A brain without serotonin – effects of complete brain serotonin deficiency on social behaviour in female mice.
10:00 - 10:45 anschl. Kaffeehol-Pause	Vanessa v. Kortzfleisch	Do too many cooks spoil the soup? Experiment heterogenisation as a way to improve reproducibility in a multi-lab situation.
10:55 - 11:40	Alexandra Mutwill	Effects of social niche specialisation on neuroendocrine profile in male guinea pigs.

12:00 Mittagessen

Anschließend Abreise
