

Seminar Series „Current Research in Behavioural Biology“ | Winter Semester 2018/2019

Date	Speaker	Title
16.10.2018 16:00 Hüfferstr. 1, Lecture hall	Prof. Dr. Jürgen Heinze Zoology and Evolutionary Biology, University of Regensburg	The secret life of the solitary social insects - reproductive strategies of ant males
25.10.2018 16:00	Vanessa	Do too many cooks spoil the soup? Experimenter heterogenisation as a way to improve reproducibility in a multi-lab situation
08.11.2018 16:00	Alexandra Mutwill Yvonne Wesseler	The effects of individualised social niche on neuroendocrine profile in male guinea pigs Influence of social experience during adolescence on cortisol reactivity and social behaviour in female guinea pigs
22.11.2018 16:00	Lena Bohn Marko Bračić	Optimistic and pessimistic decision-making under ambiguity: causes and consequences for niche choice and niche conformance
27.11.2018 16:00 Hüfferstr. 1, Lecture hall	Prof. Dr. Jens Rolff Evolutionary Biology, FU Berlin	Antimicrobial peptides and resistance evolution
29.11.2018 16:00	Janina Feige-Diller Viktoria Krakenberg	The influence of feeding routines on welfare in laboratory mice No train, no gain? Effects of daily touchscreen training on anxiety-like behaviour and stress hormone levels of mice
06.12.2018 16:00	Binia Stieger Eimear Murphy	Righty or Lefty: Lateralized behavior and welfare in mice Development of a cross-species judgement bias task
17.12.2018 17:00 Northern Kavaliershäuschen, Seminar room	Prof. Dr. Ralph Tollrian Animal Ecology, Evolution and Biodiversity, Ruhr-University Bochum	Living in a dangerous world: Ecology and evolution of inducible defenses

Seminar Series „Current Research in Behavioural Biology“ | Winter Semester 2018/2019

Date	Speaker	Title
19.12.2018 16:15 Fliednerstr. 21, Room 129	Niklas Kästner	Of anxious males and angry females – how internal and external factors shape anxiety-like and social behaviour in mice
09.01.2019 16:15 Albert-Schweitzer-Campus 1, Lecture hall	Prof. Dr. Hanno Würbel Clinical Research and Veterinary Public Health, University of Bern	More than 3Rs – Improving the validity and reproducibility of animal research
17.01.2019 16:00	Christopher Klaymann Louisa Bierbaum Taylor Rystrom	Presentation of research module Presentation of research module The influence of social niche conformance on the biobehavioral profile of females in adolescence and beyond
28.01.2019 17:00 Northern Kavaliershäuschen, Seminar room	Niklas Kästner	Of anxious males and angry females – how internal and external factors shape anxiety-like and social behaviour in mice
31.01.2019 16:00	Luca Melotti Maximilian Wewer	Going at my own pace - Tailoring cognitive challenge to the individual to improve animal welfare Mixed housing of C57BL/6J and DBA/2N female mice: Implications for animal welfare and reproducibility
